

Polyvance provides hands-on training courses that will help you properly identify, repair, and refinish automotive plastics. Polyvance’s training organization is accredited by ASE-ATMC as an adult education provider and is an approved I-CAR® Industry Training Alliance® program training provider. We currently offer the courses as described in the table below. Most of our courses are recognized by I-CAR’s Industry Training Alliance® program. Because Polyvance is an I-CAR Sustaining Partner™, students who successfully complete approved training may redeem I-CAR credits at no additional cost.

Course Name	Course Description	Time Required	Training Location	Eligible for I-CAR® credits?	Cost
Courtesy Training	This training is offered to customers after purchasing a new 6085-C or 6080-CG nitrogen plastic welding system. It focuses on the proper use of the equipment and two basic welding techniques.	Approximately 1 hour	Your location	No	No charge when we have a trainer in your area or when provided by factory-trained preferred jobbers.
