

# Plastic Repair Training Options

Polyvance provides hands-on and online training courses that will help you properly identify, repair, and refinish automotive plastics. Polyvance's training organization is accredited by ASE-ATMC as an adult education provider and is an approved I-CAR® Industry Training Alliance® program training provider. We currently offer the courses as described in the table below. All of these courses are recognized by I-CAR's Industry Training Alliance® program. Because Polyvance is an I-CAR Sustaining Partner™, students who successfully complete approved training may redeem I-CAR credits at no additional cost (only in the United States).

Course Name	Course Description	Time Required	Training Location	Eligible for I-CAR® credits?	Cost
<b>PR-01</b> Introduction to Nitrogen Plastic Welding	Provides up to three technicians with hands-on experience in five essential plastic welding operations, including working with thermoset polyurethanes. Certificates are sent out after the course is completed.	Approximately 3 hours	Your location	<b>Yes</b> 3 hours	\$500 per session for up to three technicians. Advanced registration is required.
<b>PR-02</b> Plastic Repair & Refinishing (Two Day)	Provides a complete understanding of the plastic bumper repair process, including: heat shaping and dent removal, welding, filling, priming, and texturing. Certificates are provided upon completion.	2 days	The Polyvance factory in Rainsville, Alabama	<b>Yes</b> 13 hours	\$600 per person. This course is offered periodically at the Polyvance factory. Advanced registration is required.
<b>PR-03</b> Headlight Tab Repair	An online video course that will teach you how to make strong repairs to broken tabs, how to refinish tabs to an OEM standard, and much more. Students achieving a score of 70% or more will be provided a certificate of completion.	Approximately 1 hour Self-paced online course	Online	<b>Yes</b> 1 hour	\$49 per person Register online at <a href="http://polyvance.tortal.net">polyvance.tortal.net</a>
<b>PR-04</b> Plastic Repair & Refinishing (One Day)	Provides an advanced understanding of the plastic bumper repair process, including: heat shaping and dent removal, nitrogen and airless welding. Certificates are sent out after the course is completed.	1 day	Your location	<b>Yes</b> 7 hours	\$900 per session for up to four technicians, plus travel expenses. Call 800-633-3047 to register.
<b>EPR-01</b> Estimating Plastic Repair	Takes an estimator or technician with no prior experience through plastics ID, repair methods, and 30 different calibration exercises where bumper damage is rated on a scale of 1 to 5.	Approximately 2 hours Self-paced online course	Online	<b>Yes</b> 2 hours	\$129 per person Register online at <a href="http://polyvance.tortal.net">polyvance.tortal.net</a>

Polyvance's hands-on courses, the PR-01, PR-02, and PR-04 all satisfy the I-CAR Hands-On Skills Development requirement. I-CAR requires two hands-on skills development courses each year to maintain a shop's Gold Class status.
