Acetone	67-64-1			<30%
N,N-Dimethyl-p-toluidine	99-97-8			<1%

Section 4 - First Aid Measures

Eye Contact:	Immediately flush with plenty of water for 15 minutes. Get medical attention if irritation occurs.
Skin Contact:	Flush with plenty of soap and water for 15 minutes.
Inhalation:	Remove to fresh air immediately.
Ingestion:	Do not induce vomiting. Seek medical attention.
Medical Conditions Aggravated by Exposure:	Bronchitis, CNS disorders, allergies, nausea.

Section 5 - Firefighting Measures

Extinguishing Media:	CO2, Foam, Dry chemical
Unusual Fire or Explosion Hazards:	Direct water jet will spread burning material. Water should not be used except as a fog to keep nearby containers cool. Combustion products are very toxic & highly irritating. Vapors form an explosive mixture in air.
Fire Fighting Procedures:	Firefighters should wear self contained breathing gear and protective clothing.

Section 6 - Accidental Release Measures

Methods For Clean Up:	Permit only properly protected workers with skin and eye protection and breathing gear. Absorb small spills with absorbent material, or let evaporate in well ventilated area. Pump large spills into salvage tanks.
Methods for Containment:	Landfill or incinerate in accordance with EPA and local regulations.

Section 7 - Handling and Storage

General Handling Practices:	Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Avoid spontaneous combustion of contaminated rags or other ignitable material. Keep out of reach of children.
Storage Requirements:	Keep containers closed when not in use. Keep away from open flames and excessive heat.
