#### Safety Data Sheet (SDS)

According to GHS (Global Harmonized System) - Hazcom 2012

Date Printed (YYYY-MM-DD): 2020-04-17

### **Section 1 - Product and Company Information**

Product Name: Polyethylene rod

Product Part Number(s): R04-04-08-BL, 5003R4, R4-1, 5004, R04-AA-BB-CC (Where AA is rod profile, BB is package size, CC i

**Recommended Use:** This material is for welding plastic.

COMPANY IDENTIFICATION: EMERGENCY TELEPHONE NUMBER:

Polyvance **24 Hour Emergency contact:** Chemtrec: 1-800-424-9300

Outside US: 703-527-3887

Rainsville, AL 35986

1128 Kirk Rd.

Information email: info@polyvance.com Customer Information Number: 256-638-4103 (7AM - 4PM (CST) M-F)

#### **Section 2 - Hazards Identification**

Appearance: Resinous rods

Odor: None

**Hazard Statement:** 

Not a hazardous substance or mixture.

Signal Word: Not Applicable
Signal Word Hazard: Not Applicable

GHS Physical Hazard Pictogram	GHS Health Hazard Pictogram(s)	GHS Environmental Hazard Pictogram
Not Applicable	Not Applicable	Not Applicable

#### **GHS Hazards Statement Codes for This Product**

Statement Statement
Type Code Statement Text

**Precautionary Statement:** 

Not a hazardous substance or mixture.

# **GHS Precautionary Statement Codes for This Product**

Statement Statement
Type Code Statement Text

#### **Potential Health Effects**

**Eye Contact:** The cool solid material is not expected to cause eye irritation. Thermal burns may result from

contact with the hot material.

**Skin Contact:** The cool solid material is not expected to cause eye irritation. Thermal burns may result from

contact with the hot material.

Inhalation: Prolonged or repeated inhalation of vapors or fumes from the heated material may be irritating to

the upper respiratory tract.

Ingestion: Not expected to be an ingestion problem.

Section 3 - Composition / Information on Ingredients

CAS# **ENIECS** Component REACH Reg. No. Amount Polyethylene Homopolymer 9002-88-4 98 - 100% < 2% **Proprietary Additives** Mixture

#### Section 4 - First Aid Measures

**Eye Contact:** In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

**Skin Contact:** If the molten material gets on skin, quickly cool with water. Seek immediate medical attention. Do

not try to peel the solidified material from the skin or use solvents or thinners to dissolve it.

Inhalation: Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. If

symptoms persist, call a physician.

Do not induce vomiting without medical advice. Ingestion:

# **Section 5 - Firefighting Measures**

**Extinguishing Media:** Water. Water mist. Dry chemical. Carbon dioxide (CO2). Foam. If possible, water should be

> applied as a spray from a fogging nozzle since this is a surf ace burning material. The application of high velocity water will spread the burning surface layer. Avoid the use of straight streams that may

create a dust cloud and the risk of a dust explosion. Use extinguishing measures that are

appropriate to local circumstances and the surrounding environment.

**Special Protective Equipment:** 

Use personal protective equipment. Wear self-contained breathing apparatus for firefighting if

necessary.

**Unusual Fire or** 

Bulk storage of polyethylene may result in the accumulation of ethylene gas with possible explosion **Explosion Hazards:** potential. Concentrations of ethylene gas must be kept below the lower explosive limit (LEL) of

For fires involving this material, do not enter any enclosed or confined fire space without proper

2.7%.

**Fire Fighting** 

**Procedures:** protective equipment, including self-contained breathing apparatus.

Section 6 - Accidental Release Measures

**Personal Precautions:** Sweep up to prevent slipping hazard. Avoid breathing dust. Avoid dust formation.

**Environmental Precautions:** 

Do not contaminate surface water. Prevent product from entering drains.

Methods For Clean Up:

If liquid material is spilled, allow it to cool and solidify. Place material in disposal containers and

dispose of in a manner consistent with applicable regulations.

Methods for

Contact local environmental or health authorities for approved disposal of this material. If safe and

**Containment:** practicable, reclaim material.

**Section 7 - Handling and Storage** 

Keep out of reach of children. For professional use only. Not intended for sale to the general **General Handling** 

**Practices:** 

**Storage Requirements:** Store in a cool, dry, well ventilated area.

# Section 8 - Precautions to Control Exposure / Personal Protection

**Personal Protective Equipment (PPE):** 

**Eye / Face Protection:** Goggles or safety glasses. **Skin Protection:** Not normally required.

**RespiratoryProtection:** Not normally required. If ventilation cannot be required, wear NIOSH approved respirator.

**Hygenic Measures:** Wash hands before eating, smoking or using the washroom.

Other Protection

Measures:

None

Α

**Engineering Controls:** No special ventilation is usually necessary. However, if operating conditions create high airborne

concentrations of gases or fumes, special ventilation may be needed.

HMIS Personal

**Protection:** 

## **Section 9 - Physical and Chemical Properties**

Appearance: Tough, translucent white, leathery, resinous rods approximately 1/8 inch in diameter

Odor Threshold: Not determined

pH: Not determined

**Melting Point:** 50 - 140 C (122 - 284 F)

Freezing Point: Not determined
Boiling Point: Not available.
Boiling Range: Not available.
Flash Point: Not determined
Evaporation Rate: Not determined

Flammability: Not determined
Upper Flammability Limit: Not determined
Lower Flammability Limit: Not determined

Vapor Pressure: Not determined

Vapor Density: N/A

Specific Gravity: 0.90 - 0.97
Solubility in Water: Not Soluble
Partition Coefficient: Not determined
Autoignition Temperature: > 360 C (680 F)
Decomposition Temperature: Not determined

Viscosity: Not determined

### **Section 10 - Stability and Reactivity**

Chemical Stability: Stable

Conditions to Avoid: All plastic materials may generate static electricity and should not be used around

explosive mixtures.

Incompatible Materials: Reacts violently with F2.

**Hazardous Decomposition** Emits acrid smoke and irritating fumes when heated to decomposition.

**Products:** 

Hazardous Polymerization: Will Not Occur

#### **Section 11 - Toxicological Information**

Ingestion Toxicity: No adverse health effects were noted on the digestive system of test animals when fed

up to 20% polyethylene.

**SkinAbsorption:** Presumed Not Toxic **Inhalation:** Presumed Not Toxic

Repeated Dose: Subchronic, 50-90 day, feeding studies conducted on rats, dogs and swine showed no

effects from dietary levels of 1-20% powdered and shredded polyethylene.

Carcinogenicity: Not listed by IARC, NTP, OSHA or EPA.

Reproductive: Not expected to occur.

### **Section 12 - Ecological Information**

**EcoToxicity:** Ecotoxicity is expected to be minimal based on the low water solubility of polymers.

**PersistenceDegrdability:** This material is not expected to be readily biodegradable.

Bioaccumulation: Does not bioaccumulate.

### **Section 13 - Disposal Considerations**

Disposal Method: Contact local environmental or health authorities for approved disposal of this material. If

safe and practicable, reclaim material.

**ContainerDisposal:** Disposal must be made according to official

regulations.

# **Section 14 - Transport Information**

#### DOT

Proper Shipping Name: Not Regulated

Additional DOT Shipping Not regulated as a hazardous material or dangerous goods for transportation by this

Information: agency.

### **IMDG (Maritime transport)**

Additional IMDG Information: Not regulated as a hazardous material or dangerous goods for transportation by this

agency.

# IATA (Air transport)

Additional IATA Shipping Not regulated as a hazardous material or dangerous goods for transportation by this

Information: agency.

## **Section 15 - Regulatory Information**

Superfund Amendments and Reathorization Act of 1986 (Emergency Planning and Community Right-to-Know Act of 1986)

Sections 311 and 312

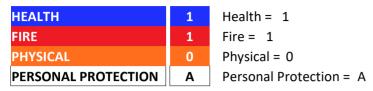

Immediate (Acute) Health Hazard: Not available
Delayed (Chronic) Health Hazard: Not available
Fire Hazard: Not available
Reactive Hazard: Not available
Sudden Realease of Pressure: Not available

The following lists hazardous components and the regulatory lists for which they are required to be reported.

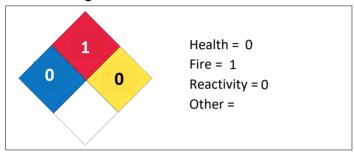

**Component:** Polyethylene Homopolymer

**CAS:** 9002-88-4 **Amount:** 98 - 100%
