

Nitro Fuzer Plastic Welder

6059

The world's best nitrogen plastic welder for plastic repair.

The 6059 Nitro Fuzer is the most advanced nitrogen plastic welder available. From simple cracks, to the most complex plastic welds; fast, strong plastic repairs are possible with the Nitro Fuzer on virtually any type of plastic. Welding with nitrogen gas creates the strongest welds possible because it eliminates oxidation of the plastic during the welding process.

The Nitro Fuzer plastic welder combines hot air and nitrogen welding capabilities for maximum versatility and economy. The 6059 welder automatically switches on the nitrogen when the torch is pulled from the holster, then automatically switches back to air when its placed back in. Precision air regulators on both the air and nitrogen sides of the welder are combined with output pressure gauges and a flow gauge to give you the ultimate control over how much gas is used in the welding process. The Nitro Fuzer also features an integrated airless welding system to allow for smoothing out the weld and for repairing thermoset polyurethane.

The 6059 Nitro Fuzer Plastic Welder comes complete with the widest selection of plastic welding rod available in the industry. It also includes an instructional DVD that takes you through every step of setting up the machine and welding with it.

Features:

- Automatic air to nitrogen switching
- Analog flow gauge for repeatable performance every time
- Element protection circuitry to help prevent burning out heating elements
- Precision flow regulators on both the air and nitrogen sides
- Outlet pressure gauges for both air and nitrogen
- Compact, easy-to-handle welding torch gets into tight spots with no user fatigue
- Melt-proof silicone & fiberglass braided hot air welder hose
- Easy-to-use, intuitive controls
- Integrated airless welder control to allow for repair of thermoset PUR
- Easily replaceable heating element

Benefits:

- **Strength:** Stronger than any 2-part epoxy or hot air weld. Plastics are melted together with no oxidation to form a permanent weld.
- **Speed:** Complete repairs in a fraction of the time of 2-part epoxies. Can weld 4 inches to 6 inches per minute. Then finish, prime, and paint.
- **Versatility:** Do repairs that are not possible with 2-part epoxies. Mounting tabs (thick or thin), grille bars, high-stress areas, flexible tabs, and fender liners. Not just for automobile plastics.
- **Cost Savings:** An average 6 inch repair costs less than \$2.00. You pay that much just for the mixing tip with 2-part repairs. The same 2-part repair can cost over \$30.00!
- **Simplicity:** With automatic air/nitrogen selection, airflow gauge, and pressure-safe cut-off switch, plastic welding has is virtually hassle free..
- **Estimating Options:** Gives you more flexibility in the estimating process. Save total losses. Get an edge on the competition. A bargaining tool with insurance adjusters.
- **Keep Profits in Your Shop:** No need to replace bumpers, headlights, and other plastic parts. Keep the labor dollars in-house.
- **Blend in the Panel:** Repair the damage to the bumper and blend the color in the panel. Avoid the risks and costs involved with blending into the undamaged fenders.
- **Insurance Relations:** Show you are on the side of cost savings while increasing your profits at the same time. Do a QUALITY repair, become an ally of the adjuster, lower cycle times, and help drive additional work to your shop.
- **Create Loyal Customers:** 25% of a shop's business is customer pay. Save them money on the small hits and they will return to your shop with the big hits.
- **Revolutionize the Repair Process:** Just as body filler replaced lead and the wire feed welder replaced brazing, the nitrogen welder will replace all other types of plastic repair.
- **Avoid Fit Issues:** Why put on an aftermarket cover when you can easily repair the OE.
- **Plastic Use to Grow:** The amount of plastic parts on cars will continue to grow. This means more repair opportunities.
- **Factory Support:** Plastic is what we do at Urethane Supply Company. For over 30 years we have been the leader in product development and problem solving. We have the proven products you need from start to finish. Plastic repair doesn't have to be difficult.

Contents:

- 6059 Nitro Fuzer Nitrogen Welder
- 6482 2 in. wide x 30 foot long Roll of Aluminum Tape
- 6124WB Stainless Steel Tip Cleaning Brush
- 6012 200 Watt Ceramic Airless Welding Element
- Welding Tips for the Air and Airless Welders
- Large Welding Rod assortment
- Instructional DVDs

***** NOTE: Does NOT come with Nitrogen bottle regulator. Nitrogen bottle regulator sold separately (P/N: 6063)**

Specifications:

Electrical:	120V/60Hz - 750 Watts (Max)
Product Weight:	21.0 lbs. 9.5 Kg
Shipping Weight:	24.6 lbs. 11.2 Kg
