Plastic Stapler

Urethane Supply Company's 6202 Hot Spot Plastic Stapler defines plastic reinforcement simplicity. Reinforcing plastics with the 6202 Hot Spot are quick, strong, and cost effective. The Hot Spot Stapler is perfect for holding broken tabs in position while making weld repairs. With our specialty staples, you will be able to strengthen virtually any type of thermoplastic repair.

Features:

- Multi-position staple contacts
- LED light for illuminating tight spaces
- Simple one button operation
- Hi and Low power settings to accommodate all staple sizes
- Diagonal cutters, 125 staples, and storage box included
- One year limited warranty

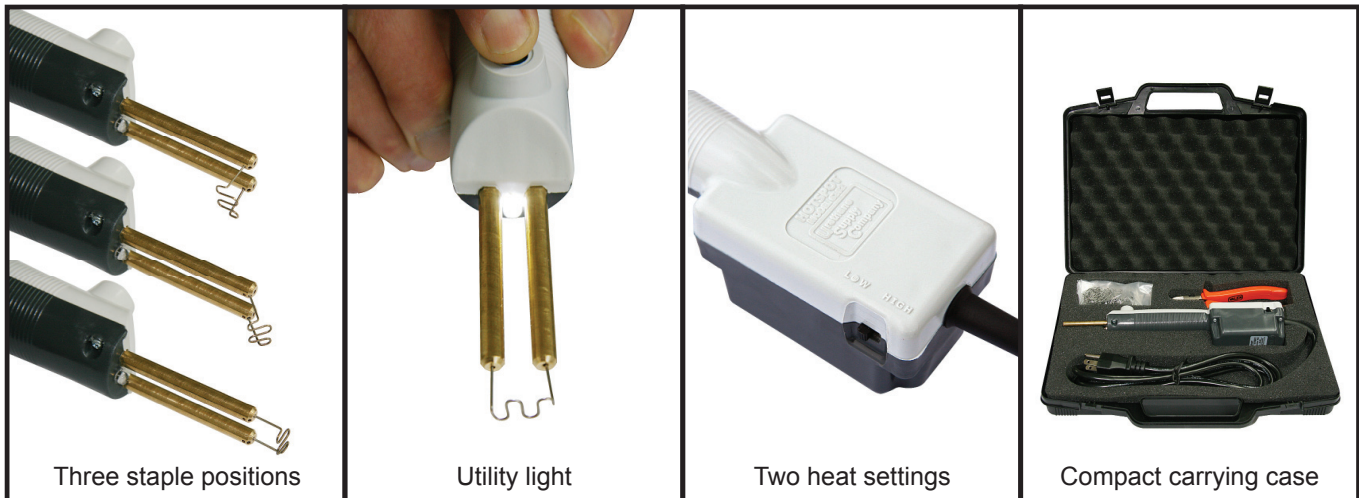

Benefits:

- Holds broken plastics together securely for weld repairs
- Makes plastic repairs stronger
- Simplifies aligning and reinforcing challenging repairs
- Improves shop productivity
