

Plastic Repair Training Options

The use of plastics on cars and trucks will continue to expand in the future as OEMs strive to meet fuel economy mandates. If you want to profit from opportunities to repair damaged plastic panels, you need the knowledge to get the job done.

Polyvance provides hands-on training courses that will help you properly identify, repair, and refinish automotive plastics. Polyvance's training organization is accredited by ASE-ATMC as an adult education provider and is an approved I-CAR® Industry Training Alliance® program training provider.

We currently offer three types of courses as described in the table below. Our PR-01 and PR-02 courses are recognized by I-CAR's Industry Training Alliance® program. Students who successfully complete this approved training are eligible to apply for I-CAR credit hour(s) and/or Knowledge Area recognition.

Course Name	Description	Time Req'd	Location	I-CAR Training Alliance?	Cost
Courtesy Training for new customers	This training is offered to customers who purchase our nitrogen plastic welding system. Focuses on the proper use of the equipment and two basic welding techniques.	about 1 hour	At your location	No	No charge when we have a trainer in your area, or provided by factory-trained preferred jobbers.
Introduction to Nitrogen Plastic Welding, PR-01	Provides up to three technicians with hands-on experience in five essential plastic welding operations, including thermoset polyurethanes. Certificate provided upon completion.	about 3 hours	At your location	Yes  3 hrs	\$400 per session for up to three technicians. Advance registration required.
Complete Course on Plastic Bumper Repair, PR-02	Provides a complete understanding of the plastic bumper repair process, from heat shaping and dent removal, to welding, filling, priming, and texturing. Certificate provided upon completion.	2 days	At our factory in Rainsville, AL	Yes  13 hrs	\$500 per person. Course is offered periodically, normally once per month.

Call 800-633-3047 or email training@polyvance.com to register for any of these courses

The training organization of Polyvance seeks to provide quality, hands-on training for industry technical and management personnel, allowing our students to safely and effectively use our products to become more successful, confident, and profitable in the repair and refinish of plastic parts.

Credit toward I-CAR knowledge areas in certain roles as well as annual training requirements can be awarded by taking one of our I-CAR Training Alliance course activities listed above. Students who successfully complete this approved training are eligible to apply for I-CAR credit hour(s) and/or Knowledge Area recognition.

The I-CAR Industry Training Alliance® exists to recognize the accomplishments of training through approved training providers. All programs approved for inclusion into the Training Alliance must support the I-CAR Vision that every person in the collision repair industry has the information, knowledge and skills required to perform complete and safe repairs for the ultimate benefit of the consumer.

The I-CAR Mission is to deliver increasingly accessible, on-demand and relevant education, knowledge, services and solutions for the collision repair Inter-Industry.

The I-CAR Vision is that every person in the collision repair industry has the information, knowledge, and skills required to perform complete and safe repairs for the ultimate benefit of the consumer.
